

1st/2nd/3rd QUIZ SYSTEM

3 teams ♦ 4 players per team

“First player on a team locks out all other players on that team”

Warranty

Your *Novel Electronic Designs 1st/2nd/3rd* Lockout System has a **two year warranty** (parts and labor). All warranty service must be performed by NED.

Service

NED’s service is quick and economical.

Overhauls – return your system to NED for complete inspection

Repair – return malfunctioning parts for repair or replacement

Troubleshooting

Player doesn’t buzz in:

- Ensure connectors are pressed in firmly
- Is cable or pushbutton broken? Try different cable.

Console buzzes but player’s box (or team indicator) doesn’t light:

- Replace light bulb (see below)

Green LED (next to reset button) on console doesn’t light:

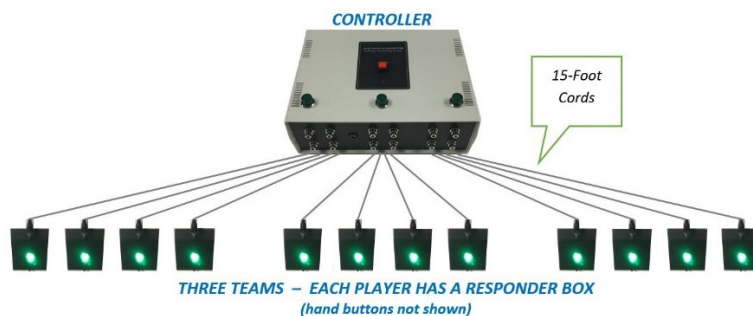

- Confirm power pack is plugged into a live outlet
- Ensure power connector is plugged firmly into console

Light Bulb Replacement

The light bulbs are ultra long-life bulbs and should never need replaced. However, if a lamp fails to light, the bulb can be tested and/or replaced. The lenses unscrew; push-and-turn bulb to remove.

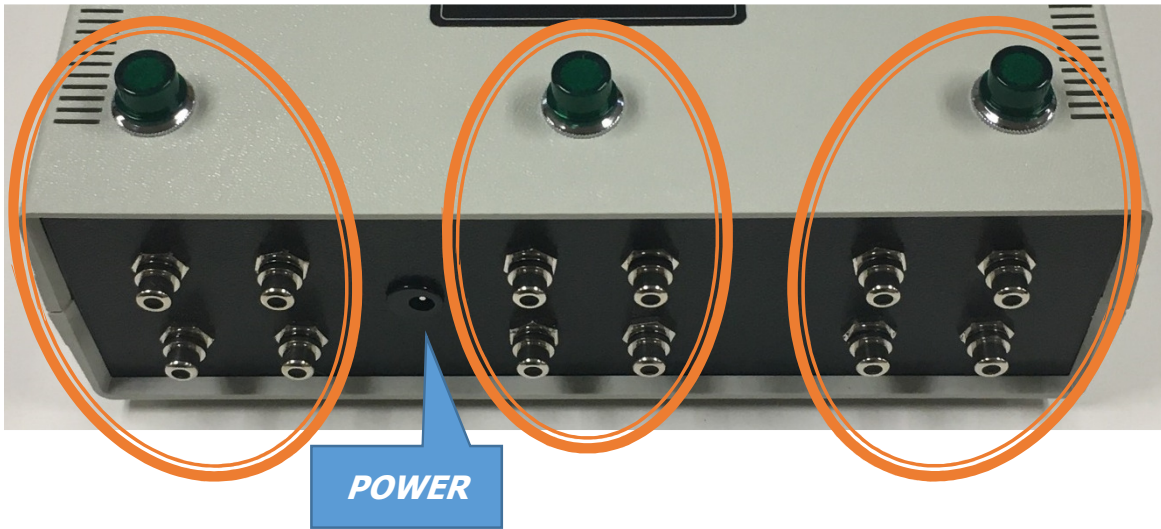

See the PARTS page at *BuzzerSystems.com* for replacements.

IMPORTANT: incandescent lamps CANNOT be used with this system.

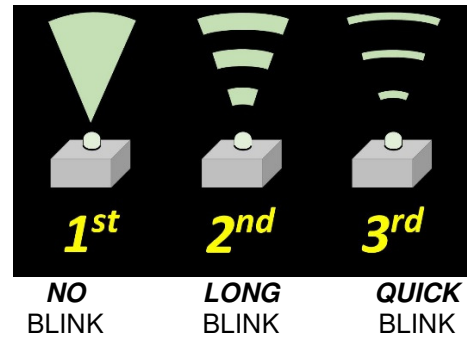

Player cords plug into controller

connectors for each team are beneath that team's light

The Order of the Players is intuitive

The longer the light is on, the higher the priority.

Remote Reset & Team Test

Connect
reset button
here

*Replicates button
on top of console.*

Press button to
confirm teams are
wired correctly.
