

# ***10-Player Console with 1<sup>st</sup>/2<sup>nd</sup> Display***

***2 teams ♦ up to 5 players per team***

***“First player on a team locks out all other players on that team”***

## **Warranty**

Your *Novel Electronic Designs 1<sup>st</sup>/2<sup>nd</sup> Lockout System* has a **two year warranty** (parts and labor). All warranty service must be performed by NED.

## **Service**

NED’s service is quick and economical.

**Overhauls** – return your system to NED for complete inspection

**Repair** – return malfunctioning parts for repair or replacement

## **Troubleshooting**

### **Player doesn’t buzz in:**

- Ensure connectors are pressed in firmly
- Is cable or pushbutton broken? Try different cable.

### **Console buzzes but player’s box (or team indicator) doesn’t light:**

- Replace light bulb (see below)

### **Green LED (next to reset button) on console doesn’t light:**

- Confirm power pack is plugged into a live outlet
- Ensure power connector is plugged firmly into console

## **Light Bulb Replacement**

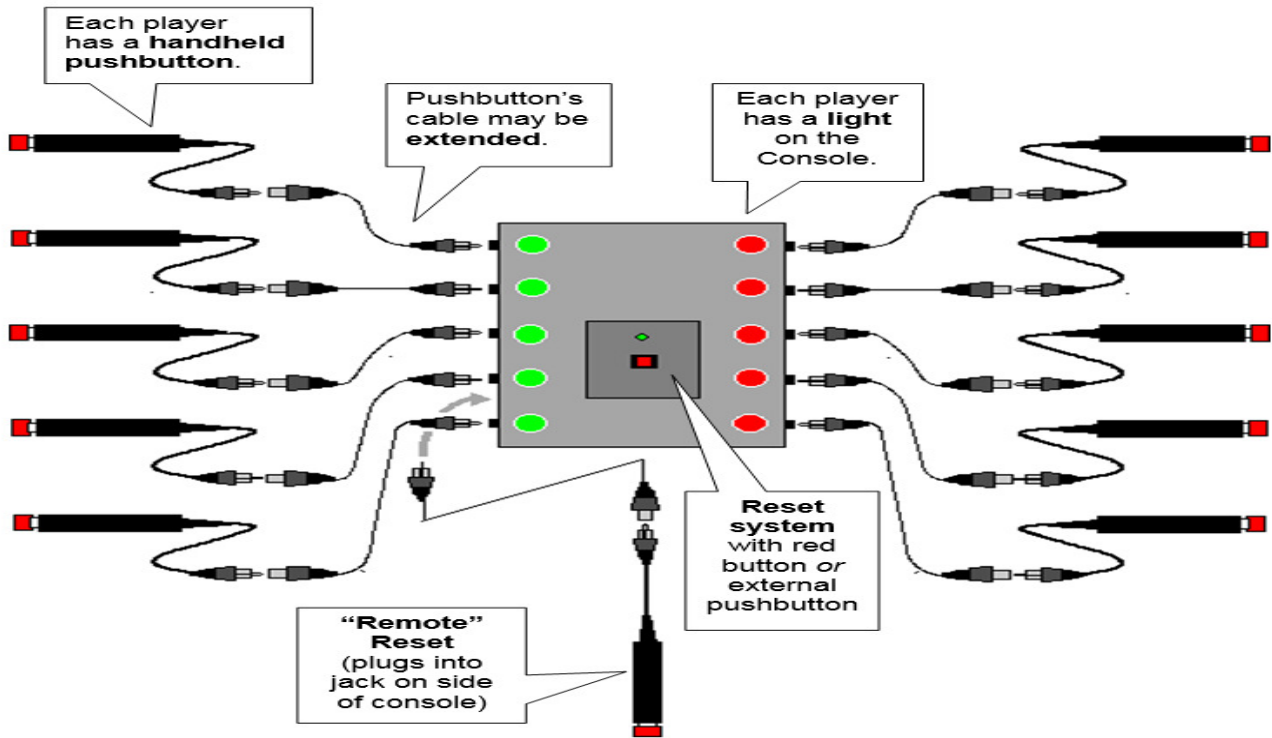

The ultra long-life bulbs should never need replaced. However, if a lamp fails to light, the bulb can be tested and/or replaced. Unscrew lens, then push-and-turn bulb to remove.

See the PARTS page at *BuzzerSystems.com* for replacements.

### **IMPORTANT**

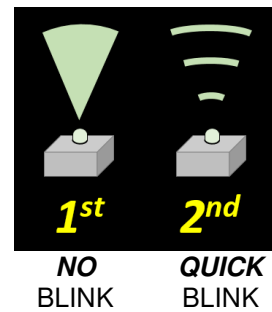

Incandescent bulbs **CANNOT** be used with this system.

## Player buttons into controller

## The Order of the Players is intuitive

The **longer** the light is on,  
the **higher** the priority.

## Timekeeper & Remote Reset

*special controller connections*

Timekeeper

*Lockout players when time expires by pressing button plugged into this connector.*

Remote Reset

*Clear system by pressing button plugged into this connector.*
